Developing a Shared Vision

Each stage of the neighbourhood plan process to date has sought to extend the amount of common ground between all sections of the community, narrowing down various options through a transparent and open process.

At all stages, the neighbourhood planning process has allowed room for dissent and minority views but the overall aim of the process has been to build a broad-based consensus to underpin the plan. This process has allowed a set of objectives for the neighbourhood plan to be developed with a strong vision statement. These, along with the rest of the plan, are still in draft and the views of the community are now being sought to ensure these are right and appropriate for Ticehurst parish.

Neighbourhood Plan Aims & Objectives

The extensive public consultation process has revealed a series of issues that are of concern or a source of anxiety to residents and businesses. The same process also identified the features and characteristics of the parish about which people are proud and wish to see protected or enhanced. Together these results have been used to generate the aims and objectives of the Ticehurst Neighbourhood Plan. These are the guiding principles of the plan and are designed to strike the right balance between protection and enhancement. All objectives are of equal importance.

The planning policies are written in such a way as to help the plan meet these objectives. Each policy is referenced against the key objectives that are of greatest relevance to it. The objectives will also serve as useful monitoring of the plan in the future.
